

www.bretonbaygolf.com

Breton Bay Golf Academy is dedicated to the development of YOUR golf game.

Our goal is to provide you with the tools necessary to improve all aspects of your game. From hitting those monster drives down the fairway all the way to being able to think your way around the golf course; what we like to call "the 15th club".

Our video lessons will enhance the instruction process. Using the latest V1 software we will be able to view and analyze your swing frame by frame. The split screen permits the instructor to show comparisons of your swing to those of PGA & LPGA Tour Professionals.

In addition you will be able to log in to your personal online academy and view your lessons any time.
